PARADOX PARADISE

PARADOX PARADISE

A Game by Pau García and J. Fernando Almendro

"What's the game about?"

Good question! Paradox Paradise is a drawing/party game where you compete against other player by getting more votes than in drawing contests.

To choose what to draw, you'll grab one card containing a sentence with a blank space (eg. "If ____ was the opposite sex"), and a card containing a historical character or event (eg. "Abraham Lincoln"), and then you'll combine them to create a full sentence (eg. "If Abraham Lincol was the opposite sex"). Once the full sentsce is completed, the two opposing players will have a minute to draw the situation from the cards. On each game, multiple couples will get to draw 1v1 against eachother.
